

PAPER TITLE	EU Energy Infrastructure Package and its implications for the SEE
PAPER ID	E2012/115
AUTHORS	Ana Stanić - English Solicitor, E&A Law and Visiting Professor of Energy Law at CEU, Budapest
ABSTRACT	This paper will discuss the package of new rules concerning energy infrastructure proposed by the European Union Commission in October last year and its implications for the region of South East Europe. In particular, it will (i) outline the Commission's proposal for a Regulation on the guidelines for trans-European energy infrastructure, (ii) examine the SEE projects currently being considered to be included as EU priority projects as part of the Regulation and (iii) the work being done by the Energy Community to integrate the energy markets of the SEE into that of the EU.
